advancedbeautycare.com

The benefits of a healing spa treatment from your beauty therapist Sarah Jane, helps *optimize your skins health*, its appearance, and leaves you feeling beautiful and healthy all month long.

CUSTOMIZED

Sarah Jane carefully selects treatments to suit you and your specific concerns that will *maximize the benefits and long-term results*.

WELL-BEING

Guinot for Life is a personalized path for well-being for you at any age of your life to maintain healthy skin all year round.

EXCELLENCE

Advanced Beauty Care offers complete *privacy*, where *luxury* rhymes first and offers an excellent environment to boost your well-being

THERAPY

A monthly treatment is a genuine pleasure that is *not a luxury but a necessity*.

REGENERATE

Being loyal to your beauty treatments is the secret to youthful features and healthy skin. *Monthly facial treatments help to regenerate the skin* and its healing processes through penetration of active ingredients.

More beautiful with your Beauty Therapist

Fabulous Firming for the Eye area

This month we will focus on Youth Recovery of the delicate eye contour, and the latest treatments that help to firm and lift. *Natural beauty therapy treatments provide a lifting effect using micro-current* stimulation instead of 'anti-wrinkle' muscle paralyzing injections. Hydradermie Lift for Eyes revitalizes the eye area to restore a relaxed youthful appearance in one session.

Your Eyes seem 10 years younger:

Eyelids are rested

Dark circle and puffiness have faded

The eye contour is lifted

Fine lines are significantly reduced

A fantastic progress in eye treatments, as a single treatment or as a series to address the concerns of ageing of the eye contour.

Advanced Beauty Care Hydradermie Lift facials include an eye-lifting treatment.

Daily application of firming eye creams are essential and a weekly eye mask will boost firming and hydration.

Introducing

Serum Longue Vie

Guinot Paris proudly announces its newest addition to the Longue Vie Cellulaire collection, Longue Vie Serum. The US debut will give American women another chance to understand what French women have known for years: **Guinot is "IT" when it comes to skin care and the newest introduction is no exception.**

Longue Vie Serum was developed by Guinot's world-renowned research team of dermatologists, biologists and chemists. With age, the activity of the 3 key skin cells—Keratinocytes, Sebocytes and Fibroblasts—is reduced. The Longue Vie Serum combats this process in attempt to **restore suppleness, elasticity and protection.**

Longue Vie Serum's filling spheres smooth the skin's surface. As they rehydrate on contact with the moisture in the skin, the filling spheres smooth visible wrinkles and retain moisture in the cells.

Available now.

GUINOT'S FIRMING ACTIVATORS

Dermostimulines - Vitamin C

Rich in amino acids, phyto-hormones and trace elements, Dermostimulines renew the skin by stimulating the cell's functions. The structures of the skin are strengthened, firmed and toned.

Vitamin C stimulates the production of collagen and elastin fibers resulting in firmer looking skin.

Lifto-Proteins

The skin's elasticity and firmness are boosted by proteins like collagen, elastin and reticulin. These complex molecules create a lifting effect on the skin while also preventing the deterioration of the elastin
